Lesson 9: Investments 101

Module 4: Where NOT to Invest

A dramatic photograph of a volcanic eruption. A thick, dark grey plume of ash and smoke billows upwards from a mountain, forming a large, cauliflower-like cloud. The plume is set against a bright blue sky filled with scattered white clouds. The foreground shows the top of a grassy hill.

Where NOT to invest? – Single Stocks

Loss vs Volatility

A capital **loss** is the **loss** incurred when a capital asset, such as an **investment** or real estate, decreases in value. This **loss** is not realized until the asset is sold for a price that is lower than the original purchase price.

VS

The range of price change security experiences over a given a period of time.
